Treasure Trails

Let's Go!

You'll need either a private jet or online access to Streetview in Google Maps to solve the Clues. All answers are numbers. Add them together to reveal how many gold coins are in the pot!

Red

Visit Red Square in Moscow. Stand in the square, in front of the museum at one end. There are two words above the wooden door. How many letters are in the second word?

Orange

Explore the parking lot of Orange Tree Square Shopping Center in Irvine, California. The 4-digit number by the East West Bank is what you need.

Yellow

Take a trip to the Old Faithful geyser Yellowstone National Park! Search the spectators sitting on the viewing benches to the south east of the geyser. Lee has the answer for you.

Green

Hop over to Greenland! Visit Sisimiut and head out to sea on the boat. Travel along the route until the 'Max Gross' in kg number is revealed.

Blue

Journey to Blue Anchor Train Station in Somerset. Locate the 'Blue Anchor Signal Box' and look at the red sign with white writing. How many letters are on this sign?

Indigo

Zip over to Indigo Valley in Australia for this one! Position yourself at the southern end of Indigo Creek Road. If Wodonga = 20 and Beechworth = 19, what is Yackandandah?

Violet

Return to the UK and wander along Violet Hill in London. How many cardboard cut-outs are lurking next door to No.3?

$$\bigcirc + \bigcirc + \bigcirc + \bigcirc + \bigcirc + \bigcirc + \bigcirc =$$
